

PROTANDIM®

NRF1 SYNERGIZER™

STOP AGING IN ITS TRACKS

Protandim® NRF1 Synergizer is a breakthrough in nutrigenomics and the fight against aging that uses ingredients to harness the energy of youth—mitochondria.

A SCIENTIFIC BREAKTHROUGH FOR THE AGES

With age comes wisdom and maturity. That's the upside. But you also get all the wrinkles, more aches, and overall lack of energy. Getting old isn't easy. We get it. We also understand why. Thanks to breakthrough in nutrigenomics, we're able to fight the signs of aging at the cellular level—right where aging occurs. It's called Protandim NRF1 Synergizer, and it's revolutionizing health and wellness.

THE MIGHTY MITOCHONDRIA

Unfortunately, we still haven't discovered the fountain of youth. But we finally understand why we age. Every day, your cells are damaged by free radicals from natural processes like breathing and from pollution in your environment and diet.

This leads to oxidative stress and a breakdown of your health at a cellular level—one of the main contributing factors to the aging process. One of the most crucial keys to slowing the harmful effects of aging and restoring a youthful feeling to

your body is living in your cells. They're called mitochondria.

Mitochondria produce up to 95% of the energy your body uses. But those muscular, microscopic powerhouses break down as you age. It's a natural part of oxidative stress. But fewer mitochondria don't just mean less energy. Mitochondria also produce ATP (Adenosine Triphosphate)—the source of cellular energy that pumps our heart, supports muscle growth and maintains healthy brain function.

A SOLUTION TO AGING UNLIKE ANY OTHER

The idea is simple: produce new, more powerful mitochondria, and you'll feel younger and more energetic from the inside out. And that's where Protandim NRF1 Synergizer steps in. It's a new breakthrough in nutrigenomics that wakes up your body's ability to boost mitochondria production, protect the ones you have and restore youth to your body at the cellular level. Protandim NRF1 Synergizer, combined with the Protandim Nrf2 Synergizer, gives us a new way to improve cellular health and support healthy mitochondrial function as we age.*

LIFEVANTAGE NRF1 SYNERGIZER WORKS ON THE CELLULAR LEVEL TO:

- Increase cellular energy (ATP)*
- Improve performance through energy production*
- Enhance cellular health—cells function at their peak performance*
- Improve sleep quality and promotes cellular repair
- Boost mitochondria production and their ability to network*
- Slows cellular aging by supporting chromosome integrity*

SUPPLEMENT FACTS

Serving Size: 2 Capsules
Servings Per Container: 30

Amount Per Serving

Proprietary Blend 455 mg[†]

Rhodiola Rosea (Root) Extract

Coenzyme Q10

Grape Extract

Alpha Lipoic Acid

Quercetin

[†] Daily value not established.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent disease.

SUGGESTED USE:

Adults, take two capsules with food and a glass of water in the morning. If you are pregnant or nursing, please consult with your physician before taking Protandim NRF1 Synergizer.

OTHER INGREDIENTS: Vegetable Capsule (Non-GMO Plant Cellulose), Non-GMO Rice Flour, Microcrystalline Cellulose, Sucrose Fatty Acid Esters.
