Introducing the Vitality Stack—all you need to make sure your brain, heart, eyes, and other vitals are working at peak performance.* It comes with PROTANDIM® NRF1 Synergizer™, PROTANDIM® Nrf2 Synergizer, PHYSIQ™ ProBio, and OMEGA+, and it's available in bottles and packets.

CELLULAR HEALTH

The foundation for any biohacker. No matter what your biohacking goal may be, at the minimum you should be addressing your health on a cellular level. When it comes to better organ function, we need a little help, like NRF1 Synergizer to boost mitochondrial function and help our organs work efficiently and Nrf2 Synergizer to protect those same cells from oxidative stress. With Omega+, you support the cell membranes and receptors that improve the way your brain, heart, and genes function while giving your brain, heart, eyes and other vitals the structural support they need. Combined with ProBio which supports healthy ratios of important bacteria, making sure your body extracts all the right nutrients. Your organs do a lot for you—it's time to return the favor.*
