GET SMART ABOUT PROBIOTICS

LifeVantage® ProBio uses BIO-Tract® to time-release probiotics deep in your gastrointestinal tract to support optimal digestion—the smart way to take probiotics. With Wellmune® added to enhance and support your natural immune system response, you get a full-spectrum ally in your journey toward a healthier weight and happier life.

YOUR GUT COULD BE WRONG

Intestinal disorders contribute to our general discomfort and stress—but many don’t know they have a problem. Our whole digestive system is governed by a complex ecosystem of helpful and harmful bacteria. When the harmful bacteria take over, it leads to gastrointestinal discomfort, a low performing immune system, trouble losing weight, and stress may increase intestinal permeability.

Increased intestinal permeability may lead to undigested food, bacteria and toxins getting into our blood stream. This can cause more stress and fatigue in your body and can send wrong signals to your brain—making you think you are still hungry when you’re already full.

IT CAN GET WORSE BEFORE IT GETS BETTER

Our stressful lifestyles come with harmful side effects from poor diet, lack of exercise and sleep—disturbing the healthy bacteria balance in our guts. Probiotics help restore that balance, but most probiotic products don’t make it to your gastrointestinal tract—they get dissolved in the acidic environment of your stomach. But, there’s a smart way to get them past this obstacle.

STRAIGHT TO THE GUT

LifeVantage ProBio from LifeVantage uses BIO-Tract® controlled-release technology to deliver 6 strains of healthy bacteria deep into your gut where they’re needed. Its 6 billion CFUs of friendly bacteria are accompanied by Wellmune® to boost your immune system strength—restoring the healthy balance you need to transform your body and life.
PROBIO

Benefits

- Provides 6 Billion CFUs of healthy bacteria to support your digestive system
- Restores your gut flora with healthy bacteria
- Helps restore gut integrity
- Wellmune® is a clinically proven ingredient to safely support your immune system and keep you healthy
- Features BIO-Tract®, a unique controlled release technology, delivering probiotics throughout the day and deep into your digestive system—where they are needed most
- Helps improve tight junctions and the communication between your brain and gut to help signal that you are full

Science

THE SCIENCE BEHIND SMART PROBIOTICS

The balance of healthy and harmful bacteria in your gut is a delicate one that affects your mental and physical health. That’s why LifeVantage chose naturally derived probiotics delivered by BIO-Tract® controlled-release technology to give you the support you need. Combined with clinically proven Wellmune® to encourage optimal immune system health, LifeVantage ProBio uses the natural potency of probiotics to support your journey of uncovering a healthier self.

ProBio delivers 6 Billion CFUs of healthy bacteria and each strain of bacteria has a unique benefit. Probiotics are measured in Colony Forming Units (CFU), which is a measurement of healthy live bacteria. Using a broad array of probiotic strains provides you with a spectrum of benefits for your gut. More is not always better—especially when it comes to probiotics. Having a balanced amount of probiotics that are alive when they arrive in your gut is more important than the quantity you ingest. That’s why LifeVantage ProBio uses BIO-Tract® controlled-release technology to deliver live probiotics deep into your small and large intestine.

BIO-Tract®—This patented, controlled-release technology delivers naturally derived probiotics deep into your gastrointestinal tract. It releases healthy bacteria over a 10-12 hour period while ProBio makes the journey through your digestive tract. This ensures that your probiotics get to your small and large intestine—where they’re needed most.

Wellmune®—Clinically proven to naturally enhance immune response and protect against physical and lifestyle stress, this healthy yeast beta glucan supports year-round energy and health for all ages. It boosts your immune system without overstimulating it—ensuring you don’t add unnecessary stress to your system.

Probiotic Strains—(Lactobacillus plantarum, Lactobacillus acidophilus, Bifidobacterium lactis, Lactobacillus casei, Lactobacillus rhamnosus, Bifidobacterium)—Healthy probiotic strains to help support healthy digestion, immune function and wellness.

Directions

Take three caplets daily with a full glass of water.
